### [Recipes A-Z on our website](#)

Yikes it's after 12 noon. So I'll post this now, and add recipes if time. If it stays like this, I'm begging for patience, click any of the links above, lots of recipes! Gracias. See you later today. -Julia

**Fridge Management:** *Everything* into the fridge except the tomatoes & basil. Top the carrots. Top the beets and turnips (if greens attached, I don't even know) and eat their greens asap: within 36 hours if possible. Cook up with the chard if you like.
